Discussion, Possible Action

**Discussion:**

The Northern California Regional Intelligence Center (NCRIC) Cyber Security Program was established in August 2013. Over the years, the program has provided cyber training to public and private sector end users; collaborated with state and federal partners on current cyber trends, tactics, and strategies; and provided on-site vulnerability/risk assessments and network monitoring to UASI stakeholders and partners.

Alison Yakabe will present a report out on the notable accomplishments made by the NCRIC Cyber Security Unit during the past twelve months.
