Discussion:

The Bay Area UASI is the recipient of two consecutive RCPGP grants hereafter referred to as: the “Equitable Community Resilience – Phase 1 Project (FY22)”, and the “Equitable Community Resilience – Phase 2 Project (FY23)”. These grants focus on Equity, Climate, Resilience, and Preparedness, and providing special attention to disadvantaged communities. The combined amount awarded for these grants is \$2.8M for the region. Grant components include:

- local & regional planning initiatives
- training
- exercise

Please note that the Bay Area UASI is currently in the process of applying for the RCPGP FY24 grant, “Equitable Community Resilience – Phase 3 Project”, which will build on outcomes of the previous two grants.
