

UASI FY14 Project Proposal Kick Off

Grant Background & Purpose

Since its inception in FY 2003, the intent of the UASI program has been to enhance regional terrorism preparedness in major metropolitan areas by developing integrated systems for terrorism prevention, protection, response, and recovery.

Activities implemented with UASI funds must support terrorism preparedness. However, many capabilities which support terrorism preparedness simultaneously support preparedness for other hazards, including natural disasters and other major accidents.

Any FY 2014 Bay Area UASI funded projects must demonstrate the dual-use quality for any activities implemented that are not explicitly focused on terrorism preparedness.
